Core System

The CereTom Portable CT Scanner

The CereTom is an 8-slice CT scanner that delivers the highest quality Non-Contrast, Angiography, Contrast Perfusion and Xenon Perfusion scans in every conceivable patient location.

Its combination of rapid scan time, flexible settings and immediate image viewing, make it an indispensable tool to any clinician needing real time data on critically ill patients.

Part Number: 10-00087-001

CereTom Imaging Station

The CereTom Imaging Station comes installed with Barco's Voxar 3D™ advanced visualization software package allowing for 2D, 3D and MPR viewing.

The Imaging Station produces DICOM 3 compliant images and with the modality worklist module, allows for seamless integration with every known PACS system.

With its wireless communication capability, the CereTom stands ready to interface into the modern hospital information technology age.

Part Number: 10-00028-001

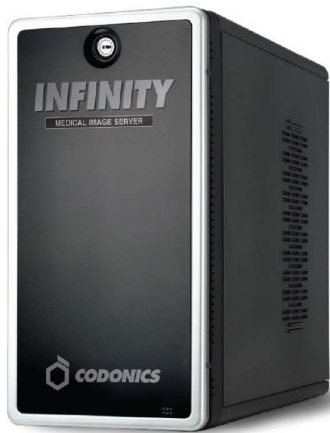

Bed Adapter with Silhouette Scan Board

Every CereTom comes complete with a radiolucent scan board and bed adapter. This combination allows virtually every hospital bed to rapidly transform into a safe and stable scanning platform. Your patient never leaves the safety of their room in the unit.

Scout Scan	0-00060-001

Codonics Infinity 3 TB Medical Image Server

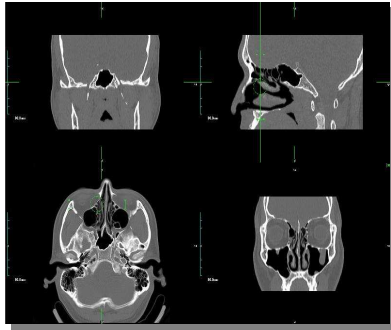

The Codonics Infinity™ Medical Image Server is an expandable DICOM storage appliance that provides a user-friendly solution for storing and retrieving medical images. The ultra-compact tabletop design is perfect for your private practice or anywhere that space is limited.

With an intuitive interface and many pre-configured features, you can easily install and administer your own Infinity image server.

Infinity can grow as your business grows. The expandable architecture allows storage and capabilities to be added incrementally. Infinity is backed by Codonics global service and support network to provide years of reliable operation. When simple, affordable image storage is needed, Infinity is the answer.

Part Number: 0-00093-001

CereTom Software Accessories

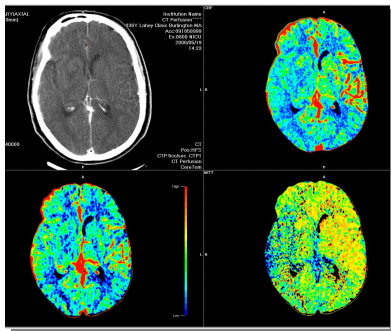

Codonics DICOM Viewer

The Codonics DICOM Viewer is extremely useful for viewing diagnostic imaging results. It includes MPR capabilities that are ideal for viewing CT images from the CereTom OTOScan Imaging Station.

With a few simple steps, your images sets can now be archived and viewed instantly on any storage device.

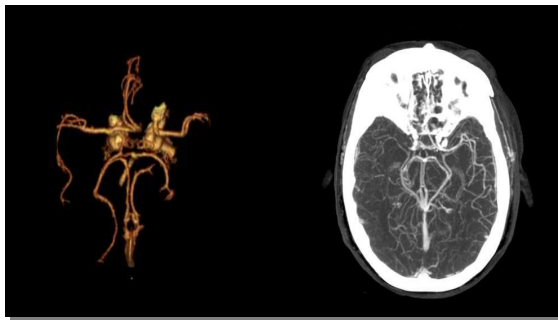

Part Number: 0-00013-001

Contrast Perfusion with Bolus Tracking

The Contrast Perfusion upgrade is a software that allows quantitative measurement imaging of the regional cerebral blood flow. Analysis of the results allows the physician to calculate the regional cerebral blood volume, the blood mean transit time through the cerebral capillaries and the regional cerebral blood flow.

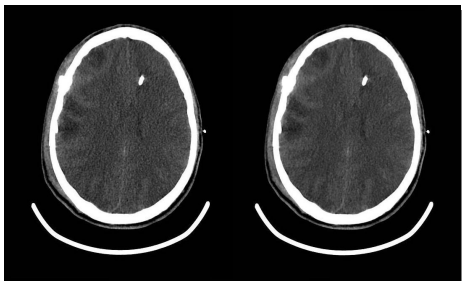

Part Number: 0-00003-001

CT Angiography with Bolus Tracking

CT angiography is a software that uses x-rays to visualize blood flow in arterial and venous vessels. The scan is performed simultaneously with a high speed contrast media injection using a technique called Bolus Tracking.

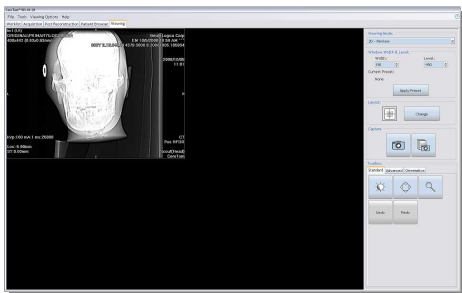

Part Number: 0-00059-001

RadRedux™ Noise Reduction Upgrade

This Post Reconstruction Upgrade is an adaptive filter that significantly lowers image noise on low dose CT scans while preserving spatial and pathological detail. RadRedux™ enables the CereTom to acquire images at up to a 50% dose reduction from original settings while meeting your clinical diagnostic needs.

Part Number: 0-00056-001

Scout Scan

Scout Scanning is a software option that is used in planning the exam and to establish where the target organs are located. The beginning and end of the scan are set by the target region and the location of the patient on the table. Once the Scout image is created it is used to determine the extent of the desired Axial/ Helical scan.

Part Number: 0-00060-001

Imaging Station with Storage Case

The CereTom Imaging Station comes installed with Barco's Voxar 3D™ advanced visualization software package allowing for 2D, 3D and MPR viewing. The Imaging Station produces DICOM 3 compliant images and with the modality worklist module, allows for seamless integration with every known PACS system.

Part Number: 0-00007-001

CereTom Imaging Station Cart

The CereTom Imaging Station cart features include an auto-locking drawer, sit-to-stand height adjustment, secure notebook mounting, and an adjustable negative-tilt keyboard tray. It also features an expansive enclosed cable management compartment making it easy to keep cables concealed and organized.

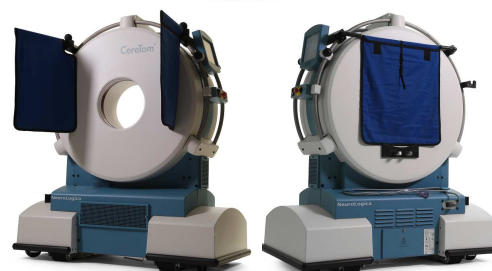

Part Number: 0-00001-001

Lead Curtain Upgrade

The CereTom lead curtain upgrade includes three externally mounted 0.5mm lead curtains (two front, one back) which provide added shielding to the gantry. As a result, no additional lead shielding is required.

Part Number: 0-00031-001

CereTom Accessories

Optistat® Handheld Power Injector Package

The handheld power injector mounting kit includes all necessary components to secure your contrast delivery system to your CereTom. It also includes a convenient basket for added storage.

Part Number: 0-00002-001

Scanner Drive System (SDS)

The Scanner Drive System (SDS) option enables a single user to easily transport the CereTom wherever it needs to go. Designed with an intuitive variable-speed joystick interface and a solid state electric drive, the user can navigate in and out of elevators, over doorway thresholds or on any type of floor, including carpet, with ease. In addition to providing transport, the SDS also serves as a cart for the CereTom Imaging Station.

Part Number: 0-00037-001

Sony UP-DF500 Filmstation

The Sony FilmStation Digital Dry Film Imager is the only dry film imager of its kind to give you an installation choice of horizontal or vertical.

Part Number: 0-00006-001

Stryker Model 1005 Stretcher

The Stryker Model 1005 Stretcher is an advanced and simple stretcher offering superior traction and cornering. It offers built-in slide board aids in patient transfers. It also offers a patented brake system that secures all four wheels, ensuring a stable surface with the stretcher in any position. Exceptional low height promotes proper patient positioning for safe entry and exit from the stretcher.

Part Number: 0-00005-001

Universal Body Transfer Board

The Body Transfer Board is a carbon fiber radiolucent board that is designed to work with any ICU Bed or gurney. The carbon fiber board comes with a 0.5 inch thick head pad, 2 x 5' orange straps to strap the board to the ICU Bed or gurney. It also comes with 3", 4", 6" and 12" bed stiffeners

Part Number: 0-00036-001

Worlds of Welcome Pediatric Covers

The Worlds of Welcome illustrations are designed to present a welcoming and fun environment to parents with young children in a hospital. It is designed to be easy to remove and replace without damage to the scanner and it is printed on a flame-retardant film that is easy to clean.

CereTom Surgical Accessories

Doro® CereTom® Skull Clamp Set

The Skull Clamp set is specifically designed for the CereTom Portable CT scanner. It offers exceptional stability with the freedom of fine adjustment for skull positioning. It also provides secured three-point fixation for optimum patient placement in the CereTom Gantry.

Part Number: 0-00064-001

Doro® CereTom® Horseshoe Comfort Headrest

The radiolucent Horseshoe Headrest is a universal non-invasive headrest for adult and pediatric applications allowing prone or supine positioning with interchangeable gel pads. Other features include an expandable base allowing fine adjustment for different head sizes. It also connects directly to the Doro CereTom Parkbench base unit.

Part Number: 0-00058-001

Horseshoe Comfort Headrest Gel Pads

Customized for Adult or Pediatric applications, the headrest gel pads are completely radiolucent allowing the CereTom to deliver the best image quality. Allow comfort for both supine or prone positioning.

Part Number: Adult: 0-00068-001

Part Number: Pediatric: 0-00069-001

Doro® CereTom® Parkbench Base Unit

The Doro CereTom parkbench mounts directly to the Operating Room/Imaging table allowing for close patient positioning and clear access to the CereTom Portable CT Scanner gantry. With a single lever and the spindle adapter, the parkbench allows for adjustable lateral and vertical positioning.

Part Number: 0-00063-001

CereTom Surgical Drapes (1 Box = 10 Drapes)

The CereTom Surgical drapes are a disposable drape for use in covering the entire CereTom gantry used in hospital operating rooms. The drape is adapted to be placed inside the CereTom bore and expanded to the outer railings. The drape is sterile and is provided with installation instructions.

Part Number: 0-00055-001

OR Table Adapter | Silhouette Scan Board

The OR table adapter secures fixation directly to your OR table. It enables the connection and use for the Silhouette Scan Board.

Part Number: Adapter: 0-00020-001

Part Number: Scan Board: 10-00010-001

Part #: 0-00026-001
 Dimensions: 19.5" post – post, with 0.625" post diameter
 Compatible with: Hill-Rom Transtar Trauma Stretcher
- 4F Hill-Rom Versacare Adapter:**
Part #: 0-00018-001
 Dimensions: 22.750" post – post, with 0.730" post diameter
 Compatible with: Hill-Rom Versacare Bed
- 4G Hill-Rom Adventa Adapter:**
Part #: 0-00050-001
 Dimensions: 16.750" hole—hole, with 0.640" hole diameter
 Compatible with: Hill-Rom Adventa Bed
- 4H Huntleigh Enterprice Adapter:**
Part #: 0-00102-001
 Dimensions: 516mm hole—hole with 40mm x 20mm front bar
 Compatible with: Huntleigh Enterprice Bed

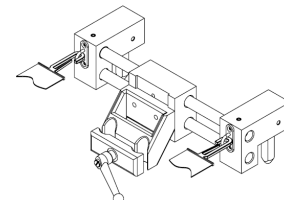

5A **Huntleigh Proscan Bed Adapter**
Part #: 0-00103-001
Dimensions: 60mm x 30mm Front Bar
Compatible with: Huntleigh Proscan Bed Adapter

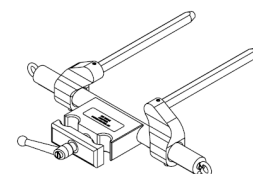

5B **KCI Barimaxx II Bed Adapter (Board Included):**
Part #: 0-00046-001
Dimensions: 36.680" post – post, with 1.090" post diameter
Compatible with: KCI Marimaxx II Bed

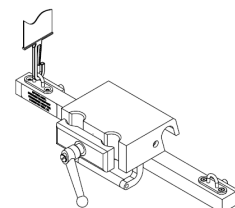

5C **MidMark 540 Bed Adapter:**
Part #: 0-00049-001
Dimensions: 13.5" post – post, with 0.843" post diameter
Compatible with: MidMark 540 Bed

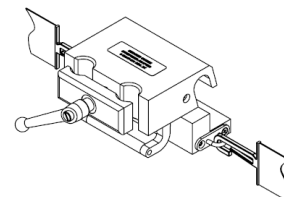

5D **OR Table Adapter:**
Part #: 0-00020-001
Dimensions: adjustable post – post, with 0.745" post diameter
Compatible with: All OR tables/ beds

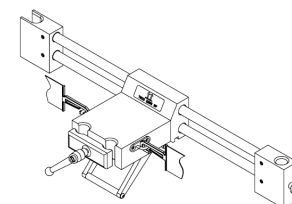

5E **Stryker Transport Stretcher Adapter:**
Part #: 0-00025-001
Dimensions: 1" round bar
Compatible with: Stryker Transport Stretcher 735

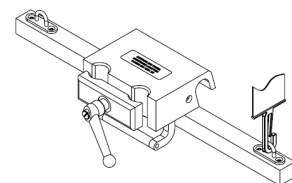

5F **Stryker Gynnie Stretcher Adapter:**
Part #: 0-00047-001
Dimensions: 1" round bar
Compatible with: Stryker Gynnie Stretcher

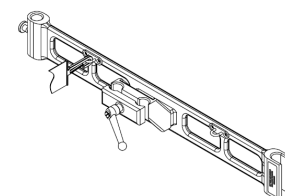

5G **Stryker Zoom Drive Bed Adapter:**
Part #: 0-00029-001
Dimensions: 27.375" hole—hole, with 0.920" hole diameter
Compatible with: Stryker Zoom Drive Critical Care Bed 2040

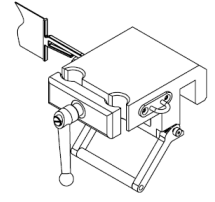

5H **Stryker Big Wheel Stretcher Adapter:**
Part #: 0-00051-001
Dimensions: 1" round bar
Compatible with: Stryker Big Wheel Stretcher

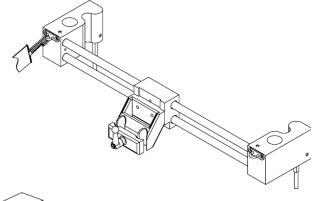

5I **Stryker Secure Adapter:**
Part #: 0-00019-001
Dimensions: 27.250" hole—hole, with 0.890" hole diameter
Compatible with: Stryker Secure II Bed (Med/Surgical Bed) & Stryker Epic

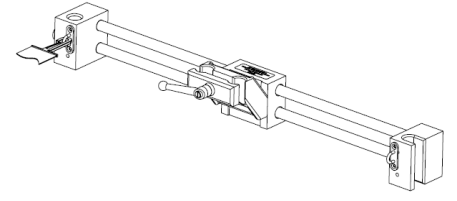

6A Stryker Trauma Stretcher Adapter:
Part #: 0-00016-001
Dimensions: 1" x 2.550" Bar
Compatible with: Stryker Trauma Stretcher 1020 &
Hill-Rom Advance 1000 Bed

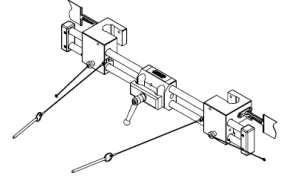

6B Stryker Glideaway Stretcher Adapter:
Part #: 0-00052-001
Dimensions: 28" post-to-post, fits 0.375" post diameter
Compatible with: Stryker Glideaway Stretcher
